Ultimate Guide for Magento 2 CookieNotification

Introducing Magento 2 CookieNotification the ultimate extension important for websites that use cookies to collect user data, as it helps you comply with privacy regulations and informs users about your website's cookie usage. Here's a step-by-step guide on how to implement a cookie notification in Magento 2:

- Allows admin to set one of the below events to perform when a user closes the notice.
 - 1.Never show again
 - 2.Hide for the rest of the day
 3. Hide for the rest of the session
 - Option to auto-hide cookie notice popup after a specific time span.
 - Option to expire the cookie agreement after specified days.
 - Option to set custom cookie consent message.
 - Option to set custom text for accept, close and privacy policy buttons on the cookie notice.
 - Easily redirect users to selected privacy policy page to read more about cookie usage.
 - Customize text and position of the cookie notice popup.
-

How to install the extension

1. Upload via ZIP/Archive

- Back up your store's database and web directory
 - Download the extension zip file and extract the zip file
 - Transfer the **app** folder into the **Magento2 root** directory on the server
-

- Enable maintenance mode **php bin/magento maintenance:enable**
- Run the command **php bin/magento module:enable MageINIC_Core MageINIC_CookieNotification**
- Run the command **php bin/magento setup:upgrade** to install the extension
- Run the command **php bin/magento cache:clean** to clean the cache
- Disable maintenance mode **php bin/magento maintenance:disable**
- Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.

Extension Configuration

To configure the extension configuration, Please go to **Stores → Settings → Configuration → MageINIC → Cookie Notification**.

General Configuration

The screenshot shows the Magento Configuration interface. At the top, there is a yellow banner with a warning: "Failed to synchronize data to the Magento Business Intelligence service. [Retry Synchronization](#)". The main heading is "Configuration". On the left, there is a sidebar with various configuration categories: GENERAL, CATALOG, SECURITY, CUSTOMERS, SALES, and MageINIC (which is expanded to show "Cookie Notification"). The main content area is titled "General Configuration" and contains several settings for the "Cookie Notification" extension:

- Cookie Notification**: A dropdown menu set to "Enable".
- Position**: A dropdown menu set to "Bottom".
- Notice Title**: A text field containing "Cookie Notice".
- Notice Message**: A text area containing "These Websites Use Cookies to ensure you get the best user experience on our sites."
- Cookie Policy Url**: A dropdown menu set to "Enable Cookies".
- When User closes The Notice**: A dropdown menu set to "Hide for the rest of the day".
- Expire Cookie Day**: A text field containing "1".

At the bottom right of the configuration area, there is a "Save Config" button. The footer of the page includes the Magento logo, copyright information "Copyright © 2023 Magento Commerce Inc. All rights reserved.", and the version "Magento ver. 2.4.6". There are also links for "Privacy Policy" and "Report an Issue".

Cookie Notification - Enable or disable extension
